

CONTROL VALVE AND REGULATOR APPLICATION, SIZING AND SELECTION

Join us for our Control Valve and Regulator Application, Sizing and Selection seminar!

This one-day learning event is for process control engineers and technicians responsible for the specification, operation and maintenance of control valves and regulators. This training shares best practices and standards to accurately specify control valves and regulators. Specifying the correct solutions supports safety, efficiency and long-term performance.

TOPICS

- Self-Operated Regulators
- Pilot-Operated Regulators
- Regulator Troubleshooting
- Overpressure Protection
- Regulator Sizing and Selection
- ISA Standard FCI-5501
- Control Valves and Severe Service
- Control Valve Actuators, Positioners, Controllers and New Technologies
- Control Valve Selection
- Control Valve Sizing - Using Fisher Specification Manager

EVENT DETAILS

Each seminar is 8:00 am - 4:30 pm. Breakfast and lunch are provided.

TUESDAY, JULY 30, 2024

Lawrence
ECI
2 Park Drive
Lawrence, PA 15055

WEDNESDAY, JULY 31, 2024

Solon
ECI
31100 Bainbridge Road
Solon, OH 44139

THURSDAY, AUGUST 1, 2024

Findlay
Hilton Garden Inn
1050 Interstate Drive
Findlay, OH 45840

REGISTRATION

www.eci.us/education/control-valve-and-regulator-seminar

WHO SHOULD ATTEND

- Process Control Engineers
- Technicians

COST

\$100 per attendee
