

Emerson Impact Partner

LEARNING IS CRITICAL TO ACHIEVING GOALS, KEEPING PACE WITH INDUSTRY BEST PRACTICES AND MAINTAINING RELIABLE PROCESSES.

ECI's learning programs are designed to help you stay current, build new skills, and position your team for success.

In-person, instructor-led learning focused on real-world applications helps build a knowledge base to support informed decision making and problem solving in industrial environments.

Instructor-Led Learning Developed to Help You Advance Your Operations

From week-long education courses in ECI's Process Learning Centers to seminars throughout our territory and conference sessions, ECI is committed to delivering learning that addresses our customers' needs. Training sessions hosted at customer sites enable easy team attendance and content tailored to your unique challenges.

Learning sessions cover a range of topics from foundational knowledge to advanced applications, including process control, asset management and reliability, Emerson DeltaV training and more.

Education Program

In-depth courses focused on building core knowledge and technical expertise.

- Comprehensive coverage of technologies, systems, and applications
- Best practices to improve performance and reliability
- Structured learning for skill development and advancement
- Ideal for individuals seeking deeper technical understanding

Customer Seminars

Interactive, instructor-led sessions designed to share insights and practical knowledge.

- Live demonstrations and hands-on learning opportunities
- Real-world applications and solution-based discussions
- Insights into industry trends, innovations, and best practices
- Collaborative environment for learning and idea exchange

Trainings & Conferences

Hands-on training and industry events that connect learning with real-world applications.

- Practical, instructor-led training experiences
- Industry-focused conferences and networking opportunities
- Exposure to emerging technologies and solutions
- Opportunities to connect, learn, and grow with peers and experts

ECI Learning sessions are built around proven strategies and practical experience, helping customers prepare for operational excellence.
